

# Fitnessstracker

- Manually or automatically log exercises
  - Cardio or strength
- View previously logged exercises
- View statistics of all exercises

# Process

- Team of 4 split into teams of 2
- Slow starters
- Severely time crunched
- Few problem encounters

# Architecture

- Familiarity, comfort and priorities
- Database hosted by Heroku
- Only activities, no fragments

# Next time...

- Follow the schedule
  - Get the ball rolling early
- Make sure every task is assigned
- More communication within the team
